PROJECTS UNDERTAKEN

□ **Inventory Management System** | Spring Boot Java, React JS, PostgreSQL as Database.

Inventory Management will help to keep records of all the assets assigned to employees.
It helps in managing the assets and keeps track of the assets that is assigned in an organisation.
Provides an efficient way to manage the assets.

□ **Grievance Management System** | Spring Boot Java, React JS, PostgreSQL as Database.

Grievance / Feedback management system could be used as a utility to track all feedback and Grievances that might come up at the organization level, in order to have a centralized platform where all open requests and resolutions can be tracked. This could help improve the communication loop as compared to sending out emails for any feedback or concerns to the respective teams.

EXPERIENCE

NucleusTeg Consulting Pvt. Ltd. | Software Engineer

July 2023 - December 2023
